

For Immediate Release: September 17, 2019

Faulkner St. and Muir St.: Traffic Pattern Change

Effective immediately, Faulkner Street will operate as a one-way only, northbound. Muir St, between Arlington Place and Faulkner Street, will operate as a one-way west bound.

Faulkner Street is being converted to one-way traffic with parking on the east side of the street. The installation of curb and gutter on the street reduces the width of the driving surface, thereby limiting the space available to accommodate through traffic and parked vehicles. As a result, parking will be permitted on the east side only and traffic will be restricted to one-way in the northbound direction.
