

**TOWN OF TRURO PROVIDES UPDATE ON REPAIR WORK
AT THE COLCHESTER LEGION STADIUM**

Truro, NS – January 24, 2023 – The Colchester Legion Stadium on Lorne Street was devastated by Hurricane Fiona in September 2022, causing major damage to the roof and water damage to the interior. This has resulted in a long-term closure of the facility.

While damage mitigation work took place throughout the Fall of 2022, remediation and repair work is ongoing. At this point, the project scope has been established and the Town is working with contractors to obtain quotes on the cost of repairs. These will also need to be approved by the Town's insurance provider. The scope of the project is extensive and delays are also magnified due to the shortage of contractors available to complete a project of this size.

While the project completion date is unknown at this point, the Town is optimistic about reopening the facility in late-August 2023 and that the facility will be available for a 2023-2024 season.
